When Badger Lake puts up a little doings Lomond makes a response in full force. At least this was the case when Lomond sent out the foot ball team on Friday night. Badger Lake was loaded for bear and carried the fight into Lomond quarters and winning the game by the only score made during the game, though both goals were repeatedly bombarded. The play was a little late in starting and used up about all the daylight available before the final call of time. There were a couple of unfortunate casualties. Billy McArthur of Badger Lake had his shoulder fractured, though he did not realize it as that serious at the time. J. H. T. McLean suffered a crippled foot. After the game ice cream, cake and dancing were all enjoyably disposed of.

The Milo base ball team disposed of the Lomond players to a very humiliating score in a friendly game played at Milo on Sunday. Lomond took along a good following of supporters.

Mrs. E. W. Frost is enjoying a visit from her father, Mr.

Winchester, of Sussex, Eng. Mr. Winchester came over on the Metagama and visited a month in Winnipeg before coming to Lomond.

Born, at Lomond on Monday, May 5th., to Mr. and Mrs. Gordon Elliott, a son.

Mr. Goeson and daughter of Granum spent the week-end at Lomond with Mr. Goeson's brother, Mrs. O. R. Olson. He reports crops good and grasshoppers numerous in that district.

The Lomond Masons celebrated a third degree night on Monday by a big feed served in Vickers' Hall. Dr. Walkey, W. J. Clements and Frank Vickers are the delegates to the Grand Lodge sessions being held at Edmonton.

H. Erskine, W. M. Armstrong and J. Stewart paid a business visit to Carmangay I. O. O. F. Lodge this week.

Born, at Calgary on Friday, June 9th, to Mr. and Mrs. L. M. Swain, a son.

Sunday, June 18th., is U. F. A. Sunday and, as was stated in the last issue, Lomond Circuit

appointments are to be favored with addresses by Prof. Ottewell of the Edmonton University. Prof. Ottewell is credited with being one of the leading educational exponents of the West and at the same time enjoys the happy faculty of meeting his audiences on common ground. The Press would exhort everyone who can, especially the farmers, to hear Prof. Ottewell on Sunday evening when he speaks at Lomond.

J. I. Rickett, who has been living with his daughter, Mrs. Gallagher, at LeGrande, Ore., for the past two years, is in a very low condition as a result of cancer. His daughters, Mrs. Harry Lynk and Mrs. Robert Plunkett, left on Saturday evening to be at his bedside.

LOMOND ALBERTA, JUNE 9, 1922

Speaking to a body of business men at Lethbridge a week ago, Hon. Geo. Hoadley, minister of agriculture, stated that the time had arrived when a weeding-out process would have to take place in Southern Alberta. The burden of government relief has reached proportions beyond the capacity of the provincial government to bear. The South and its people must either stand or fall on its own merits. This may seem hard medicine to some but it is the only method that will tend to make conditions satisfactory and give to farming and business organizations a structure of stability. If we people cannot exist here upon the rewards of our own efforts the sooner we find a more favorable location the better it will be for ourselves and the province as a whole. But we must take cognizance of the lesson taught by this experience and make haste slowly when choosing locations.

It only takes about three days of hot, dry weather to kindle a panic. The Press is free in admitting that the present period of heat is the most oppressive experienced in our time of residence began in 1909. The wet break in 1911 occurred on June 20 and that season was the nearest to this year's design that we can remember. There is little use talking of pilgrimages to the Peace River while the Lethbridge Northern irrigation can use more settlers than a drouth could scare out. Of course there are still some people who insist that this country cannot be irrigated. They apparently expect God Almighty to fill in all the badger holes and grade the farms into a gentle slope so that all the effort necessary in irrigation would be the mere turning open of the flood gates. But it is this excessive period of idle time that we farmers endure yearly that are bringing poverty upon us.

There are a few places upon the face of this earth where mankind can exist without physical effort. Places where such is possible white men shun as a death valley to their soul.

Realizing that the prosperity

of the individual depends largely upon the prosperity of the whole, and that the prosperity of the whole in Western Canada is being endangered by the attitude assumed by Premier King and his liberal followers over the freight rates issue in withholding from the West a reduction in freight rates significant to the Crow's Nest Pass agreement, prominent Winnipeg business men, formerly prominent liberal leaders, have renounced their former political connections and affiliated with the progressives, claiming that this party gives expression to the honest aspirations of the West.

Most of us like to grumble a little bit about work. "Back to the grind," we say on Monday morning. But we don't mean it. Work is probably the greatest of our blessings. What a dull detestable place this world would be without work to do!

Work is the greatest panacea for all ills. Nothing like work to soften grief. The secret of good health and happiness is an open book—happy, healthful work, and lots of it.

## Good Sport

☛ Don't be a "sport"—as per the vulgar interpretation associated with that term—but set about to enjoy some line of good sport.

☛ Make a hobby of some game, be it base ball, foot ball, tennis, golf, fishing or shooting. Set aside a reasonable amount of your time and devote it to your own peculiarly chosen hobby.

☛ Like David Harum's fleas, a reasonable amount of sport will keep you from "broodin' over bein' a dog." It has a most refreshing result, both physically and mentally. No more emphatic argument could be used than the bye-word of Europe, "Lloyd-George does it."

## Feed Oats for Summerfallowers

5 Mills Levy for General Taxes. Even the C.P.R. Must Poison the Grasshoppers.

Minutes of the meeting of the council of the Municipal District of Clifton, No. 127, held on Monday, June 5th. Reeve Rodgers and Councillors Talbot, Buhlinger, Wighton, Hornberger and McPherson were present. Meeting called to order at 2 p.m. Councillor McPherson having already signed the oath of office the minutes of the previous regular meeting and the intervening special meeting were read and approved without correction.

E. E. Lacquement presented a bill for \$25 for his fees as returning officer at the bye election. After discussion Coun. Talbot moved for payment.

The secretary reported that the Department of Agriculture had informed him by telephone that said Department was willing to advance the money for the payment of the man in charge of the mixing machine at the rate of \$3.50 per day and an assistant at the rate of \$3.00 per day, this to apply to each mixing station. Further, that the Council was to use its best endeavors to hire men to spread the grasshopper bait where necessary and have the amount earned by these men applied on their taxes. Coun. McPherson then moved acceptance for government proposals.

Moved by Coun. McPherson that the grasshopper bait supplied to neighboring districts be charged for at cost price, in accordance with the letter received from the Department of Agriculture, the secretary to write the Department if in doubt as to the amount to be charged.

Moved by Coun. Buhlinger that the offer of O. R. Olson to haul water to mixing station from now on at the rate of \$3.50 per tank be accepted.

Moved by Coun. McPherson that O. R. Olson be paid \$5 per tank of water for the three tanks already hauled to the mixing station.

Moved by Coun. Buhlinger that Coun. McPherson supervise the mixing station Travers.

Moved by Coun. Wighton that councillors be paid \$4 per day and mileage at .10 per mile travelled for the supervising of the grasshopper bait distribution.

Moved by Coun. Hornberger that the secretary notify the Canada Land & Irrigation Co. and the Canadian Pacific Railway and the Hudson's Bay Co. to spread grasshopper bait on their lands.

Letter from Erik Kjinserdahl, poundkeeper at Travers, re the installation of a squeezer in his pound, was tabled.

Copy of the Weed Act and letter from the Department concerning same, tabled for future reference.

Moved by Reeve Rodgers that the secretary carry out the instructions regarding the Wild Lands Tax as contained in the letter received from the Department of Municipal Affairs.

The secretary was instructed to notify A. W. Tulloch of the approval of his appointment as auditor.

Certain letters received by the secretary regarding the Municipal

District were placed before the Council. Moved by Coun. McPherson that retary from private parties requiring these letters be tabled and the secretary notify the parties concerned that no time was available for the answering of these letters.

Moved by Reeve Rodgers that brand books be purchased for use of the poundkeepers when funds are on hand, these books to remain the property of the Municipal District.

Moved by Coun. Buhlinger that the secretary write the Department of Agriculture requesting the Department, upon the recommendation of the council, to appoint Erik Kjinserdahl as brand reader.

Moved by Coun. Talbot that hay be returned to the government relief agent at Lomond instead of cash, this hay to take the place of that borrowed by the Municipal District from the government.

Moved by Coun. Buhlinger that 200 lbs. of grasshopper bait be the limit to be supplied to a quarter section, over this amount to be charged to the land.

Moved by Coun. Buhlinger that bill of \$25.54 due to E. Kjinserdahl be authorized paid.

Moved by Coun. Talbot that Coun. McPherson be deputy-reeve for the remainder of ex-Coun. Barnett's term of office.

Moved by Coun. Talbot that the mill rate for general municipal purposes be 5 mills on the dollar.

Moved by Coun. McPherson that school taxes be levied according to the demand made by each school district.

The question of feed for summer-fallow work was brought up for discussion. Moved by Coun. Wighton that one bushel of oats be allowed for each

three acres of summerfallow to be ploughed.

Moved by Coun. McPherson that the hay stored in the barns in Lomond owned by the Municipal District be insured.

Moved by Coun. Buhlinger that the council meetings be held at 10 a. m. instead of 2 p.m. Motion lost.

Regarding letter from E. Williamson concerning road through the N. E. 1 of 7-15-21, the secretary was instructed to let Mr. Williamson know as soon as blue print of this road is received.

The following bills were passed for payment:

A. Wogsberg, fumigating \$4.00.  
O. R. Olson, unloading hay, \$12.10.  
O. R. Olson, coal for hospital, \$7.00.  
O. R. Olson, unloading hay and grasshopper bait, \$104.35.

Elliott, Argue & Co., groceries for hospital, \$21.35, bill to be OK'd by secretary and Village of Lomond to be charged with its share.

Mrs. J. E. Root, nursing, \$12, to be paid and charged back to K. Sobb.

Soo Sing, hospital laundry, \$2.70.

F. Newton, looking after hay and oats, \$25.

A sign of the business revival which is now taking place throughout Canada is to be noted in the resumption of operations at the big refinery of the International Nickel Co. of Canada, Ltd., at Port Colborne, Ont. Officers of the company state that these operations are still limited in extent so that they are not yet able to set any specified production basis. The smelter at Copper Cliff will, however, resume production early in the fall. Canadians will be gratified to know that International Nickel are now concentrating practically all their operations in the Dominion having dismantled their refinery at Bayonne, N.J.

Lomond appears to have been more favored in the recent rains than most of the districts within the province, when the point of quantity is considered. Drouth conditions have been general from north to south, if anyting the north country suffering the most. At that the rye crops here will be far from a salvation to the country and it is a peculiar fact that the wheat is withstanding the dry weather to far better advantage than the rye and with a favorable turn as in some former years that we know of, record yields could be expected.

## JUST WHERE WE STAND WITH IRRIGATION

It took about seven years for the Lethbridge-Northern Irrigation district to get into regular motion. The Retlaw-Lomond district is travelling at about the same pace, as the letter printed below will indicate.

Retlaw, May 27th., 1922.

Gentlemen,—

Acting on the resolution passed at Enchant I beg to report the progress made in regard to the formation of the Retlaw-Lomond Irrigation District.

When I carefully checked up the petitions last June I found that they still lacked on the necessary fifty-one per cent of the registered land owners. I then made a canvass of the township that I felt sure where I could secure the necessary signatures, which I did.

I then forwarded the petitions to the Minister of Public Works where they were accepted.

I then thought we were in a position to go ahead with the formation of the district but was told that the necessary survey work had not been done.

On April 29th I prepared and had filed a memorial, on behalf of the district, for the right to divert water from the Bow River through the works of the Canada Land and Irrigation Co.

I wrote to Mr. Charlesworth on May 5th advising him of the progress made to date and asking him what was the next step to take. He replied that there did not appear to be any further step to take at the present time. He quoted Sub-Sec. 2 of Sec. 5 of the Act namely: petitions must be accompanied by satisfactory evidence of the feasibility of operating the proposed district as an Irrigation District. The evidence in this connection which is necessary is the report of officers of the Dominion Reclamation Service on this project.

I understand that survey parties are at work now in this district so perhaps this evidence may be obtainable during the summer. If so, I will at once advise you of the fact.

Yours very truly,

W. A. Hempel, Secretary.
